MYOFASCIAL RELEASE

APPROACH®

MYOFASCIAL RELEASE

~ ENHANCE YOUR LIFE! ~

The John. F. Barnes' Myofascial Release Approach® is considered to be the ultimate mind/body therapy that is safe, gentle and consistently effective in producing results that last. John F. Barnes, PT, is an international lecturer, author and authority on Myofascial Release. He is considered to be a visionary and teacher of the highest caliber.

WHAT IS FASCIA?

Fascia is a tough connective tissue which spreads throughout the body in a three-dimensional web from head to foot without interruption. Trauma, posture or inflammation can create a binding down of fascia resulting in excessive pressure on nerves, muscles, blood vessels, osseous structures and/or organs. Since many of the standard tests such as x-rays, myelograms, CAT scans, electromyography, etc. do not show the fascial restrictions, it is thought that an extremely high percentage of people suffering with pain and/or lack of motion may be having fascial problems, but most go undiagnosed.

Fascia Photo by Permission of Dr J.C. Guimberteau

The viscoelastic quality of the fascial system causes it to resist a suddenly applied force. This explains why the “old form” of myofascial release, which was an attempt to force a system that cannot be forced, produced pain and limited results.

WHAT IS THE JOHN F. BARNES' MYOFASCIAL RELEASE APPROACH®?

The John F. Barnes' Myofascial Release Approach® consists of the gentle application of sustained pressure into the fascial restrictions. This essential “time element” has to do with the viscous flow and the piezoelectric phenomenon: a low load (gentle pressure) applied slowly will allow a viscoelastic medium (fascia) to elongate.

Our seminars are designed to be “hands-on” experiences. The seminars listed in this brochure all build upon one another providing a logical, step-by-step, comprehensive Approach for the treatment of pain, headaches and dysfunction. The Barnes' Myofascial Release Approach® is easily learned so that you can utilize the techniques taught in class immediately upon returning to your practice.

Discover how this truly unique Approach can help you to develop the skills and confidence to provide consistent results for your patients / clients while adding fulfillment and revitalizing your professional and personal life!

“If you are drawn to take the seminars, just listen to your intuition. You will not regret it! This work is wonderful for your patients/clients, as well as yourself. You will be able to help so many people, people who are desperate because nothing is helping. Each patient is special and unique. Learning the John F. Barnes' Approach to Myofascial Release will give you the techniques, ability and confidence that you need to treat each person as a distinct human being. Myofascial Release is truly a therapeutic art.”

MYOFASCIAL RELEASE

JOHN F. BARNES, PT, LMT
*International lecturer, author
and authority on Myofascial Release*

John F. Barnes, PT, LMT is a therapeutic 'icon' considered to be a teacher of the highest caliber. He has been teaching Myofascial Release seminars for over 45 years and has trained over 100,000 therapists.

**What we have learned in the past, while logical,
is riddled with obsolete concepts and beliefs that only yields temporary results.
Embrace Myofascial Release to be the best therapist you can be!**

A MINDLESS MACHINE

Do you have a mind? Do you feel like a machine? Unfortunately, the paradigm that we were taught in traditional healthcare is that we are mindless machines. Many years ago, the father of modern medicine René Descartes, created 'dualism' separating the mind from the body which remains the prevailing myth (theory) today. Also, some look at us as just a "bag of chemicals" meaning we are merely biochemical, mindless machines.

Separating the mind from the body is likely the reason why too many of your therapeutic efforts have failed, only producing temporary results. We have all tried very hard to help people. We have spent a lot of time and effort on our education, only to find out that much of what we were taught may be faulty, based on erroneous ideas and obsolete, absurd notions.

MUST-READ!

This beautiful picture of the fascia depicts the 3-dimensional web of the fascial system. However, something so important is missing! What you are looking at is not space within that 3-dimensional web. It is the fascia's ground substance, the fluid of our body, which is the main transport medium for all the nutrition we ingest, the oxygen we breathe, the fluid we drink, and all the biochemistry, hormones, information and energy that every one of the trillions of cells in our body needs to thrive!

Many years ago, René Descartes, father of medicine, Isaac Newton and other scientists had disagreements with the Church. Descartes wanted to dissect cadavers to better understand anatomy and the Church would have none of it. They were all fighting over control . . . big surprise. I think what happened was they all gave up and eventually came to an agreement—physicians received the biochemistry, the Church received the spirit, the therapists received the body, and no one, no one wanted the emotions!

Treating the Fascial System is of the Utmost Importance!

The human being was fragmented and over the years it has gotten worse. This all led us to view the living human being through a distorted prism and a very unrealistic, ineffective way of treating the mind/body complex.

This was the beginning of science's method of reductionism, separating systems and structures as if it could be done in life, it can't! Reductionism was proven to be a totally inappropriate way of understanding the human being by Max Planck, the father of quantum physics, in 1923. This erroneous prevailing view of our patients/clients persists today.

Myofascial Release is safe, effective and produces lasting results. Myofascial Release treats the whole person, the 'being' of the human being. One cannot separate the mind from the body. I am not speaking about just brain function. The work of Candace Pert, developer of the endorphin theory, for decades has found that every cell has intelligence, memory and emotions that flow through microtubes of the fascial system via the neuropeptides, at enormous speeds. Recent research has also shown that our body does not communicate in words and thoughts as we were taught. Consciousness is vibrations and frequencies of photons that flow through the fluidity of the microtubules of the fascial system. This fluidity is called the ground substance of the fascial system. As you know, we are over 70% fluid. All the research that has been performed on the fascial system has been performed on dead people. Dead people are brittle and have no consciousness. The fascial system was thought of as useless packing material cut away during dissection and tossed on the floor.

The wisdom of Albert Einstein, stated that everything is energy, different frequencies and vibrations of energy. Further back in time, Nikola Tesla, one of the world's greatest geniuses, also stated the same thing, that everything is energy.

Trauma changes or blocks the energetic flow of our body, which diminishes consciousness. The fluid slowly becomes more and more viscous developing into a solid mass of crushing pressure (approximately 2000 pounds per square inch) on pain sensitive structures. Many of the diagnostic labels that you or your patients/clients have received such as pain, headaches, fibromyalgia, women's health problems, restriction of motion, etc. are actually produced by the solidification of the ground substance that produces crushing pressure and the resultant protective responses of our mind.

The wonderful thing about Myofascial Release is that it is safe, because we never force. The "art" that I will teach you is being able to discover where the individual restrictions are located. There are over 7 billion people in this world and there are over 7 billion different fascial strain patterns. The "therapeutic art" is being able to find the restrictions and apply gentle, sustained pressure which is quite different from what we learned in school.

Myofascial Release will allow you to achieve profound results.

JOIN US IN THE IMPORTANT MYOFASCIAL RELEASE EVOLUTION IN HEALTHCARE!

Sincerely,
John

MYOFASCIAL RELEASE I

This exciting “hands-on” introductory course has trained over 100,000 therapists. Graduates of this course are immediately able to produce positive, structural changes in their patients with acute and chronic pain and dysfunction. These whole-body techniques will be an important added dimension to your existing treatment regimen, greatly enhancing your therapeutic effectiveness.

20 CONTACT HOURS

“I attended MFR 1 last year in Sedona. My practice is probably 90% MFR and people love it! I believe that the demand for Myofascial Release will do nothing but increase as people learn more about fascia and experience the healing that comes with this work.”

ENJOY A NEW, EXCITING AND LUCRATIVE CAREER!

I have had the opportunity of training over 100,000 therapists and my goal is to help you improve your logical and intuitive abilities and enhance confidence. Trauma and inflammatory responses create myofascial restrictions that can produce tensile pressures of approximately 2,000 pounds per square inch on pain sensitive structures that do not show up in any of the standards tests (x-rays, myelograms, CAT scans, electromyography, etc.)

This enormous pressure acts like a “straightjacket” on muscles, nerves, blood vessels and osseous structures producing the symptoms of pain, headaches and restriction of motion.

Symptoms are the tip of the iceberg of a much deeper, important problem—myofascial restrictions! Science has now discovered what I have been teaching for over 45 years; i.e., pain, dysfunction and disease are caused by a prolonged inflammatory response. Trauma and the resultant inflammatory response create myofascial restrictions that ultimately create the symptoms.

Myofascial Release allows the chronic inflammatory response to resolve and eradicates the enormous pressure of myofascial restrictions exerted on pain-sensitive structures to alleviate symptoms and to allow the body’s natural healing capacity to function properly.

ENJOY THE FULFILLMENT OF CONSISTENT, PROFOUND RESULTS!

“I was introduced to Myofascial Release at a time in my life when I was considering leaving the profession of massage therapy altogether. My body was in pain from performing traditional massage techniques, such as deep tissue, and I was not helping people as much as I had been led to believe. I was burnt out from trying to force change.”

PATIENT STATEMENT

ONE YEAR OF PHYSICAL THERAPY & MASSAGE THERAPY

MYOFASCIAL RELEASE RESULTS

“After finding a cancerous tumor in one of my legs, I was a runner left without the use of my left leg. It was both physically and emotionally devastating to lose the use of a limb. I was becoming increasingly frustrated with traditional physical therapy as a means for fixing a poorly functioning leg after surgery and months of not using it. The therapy I was enduring was painful and producing little to no results. I thought there must be something else out there that might help more than the painful pushing and pulling that was occurring nearly daily at physical therapy.

A family member referred me to a Myofascial Release therapist, Rowena Cua. I was immediately impressed by Rowena’s kind nature, warm spirit, and the tremendous amount of knowledge she was willing to share with me about fascia and the John F. Barnes Myofascial Release Approach. Rowena and I have worked together weekly to release scar tissue and trauma and restore the function to my leg. Her care and treatment have been vital to my recovery.”

Her doctors told her that she probably wouldn’t be able to straighten her leg again because they removed so much of her hamstrings from the sarcoma. After Myofascial Release she was able to walk without a limp and straighten her leg, therefore being able to run again!

MYOFASCIAL UNWINDING

The Myofascial Unwinding seminar is designed to enhance your skill level and sensitivity providing you with a comprehensive treatment regime. Persistent pain and/or structural dysfunction may be perpetuated by “holding or bracing patterns” in the body. You will learn from the patient’s perspective how unresolved emotional issues or mental concepts that are outdated and are no longer relevant may impede progress. The intermediate “hands-on” Myofascial Unwinding™ seminar will also improve your mental clarity, focus, sensitivity of touch and expand your abilities to achieve consistent results.

20 Contact Hours—Prerequisite: Myofascial Release I™

“I have been taking courses with John F. Barnes for just shy of 15 years. The changes in my own body and understanding how it works, how my tissues communicate, and how to let go of fear of past traumas and pain have been incredible.”

MYOFASCIAL UNWINDING IS A VERY EFFECTIVE MOVEMENT FACILITATION TECHNIQUE UTILIZED TO:

- ◆ Decrease Pain
- ◆ Increase Range of Motion
- ◆ Eliminate Subconscious “Holding or Bracing Patterns”
- ◆ Increase Your Proprioceptive Awareness
- ◆ Increase Functional Mobility of the Neuro/Myofascial/Osseous Systems

MYOFASCIAL RELEASE II

Myofascial Release I developed a fascinating framework of concepts and techniques. Myofascial Release II completes this conceptual framework with important, advanced, whole body Myofascial Release techniques and newly refined cranial advancements. The intermediate “hands-on” Myofascial Release II seminar will greatly enhance your vital “feel” via development of the tactile and proprioceptive senses which will allow you to achieve a higher level of expertise. These exciting techniques have been carefully developed and selected for their outstanding, consistent results.

LEAP !!!

practice, with very little advertising (only Facebook ads and a listing in the MFR Directory). The demand for Myofascial Release exceeds what I can physically supply. People NEED this work. For the first time in my life, I'm making enough to support my kids without relying on anyone else. Best of all, we have been able to take a few memorable family vacations before my kids are all grown up. John says, "Life is meant to be enjoyed," and we are enjoying it so much more now, thanks to him. Love you, John F. Barnes!"

"I love talking about how John F. Barnes Myofascial Release has transformed my financial circumstances! I grew up very poor and continued to cycle below the poverty line throughout my 20's and 30's. I was 40, newly divorced, and financially devastated when I graduated from massage school five years ago. My area is saturated with massage therapists and I had no idea how difficult it is to make a steady, sustainable living from bodywork in my town."

"About 3 years ago, I was introduced to John Barnes' Myofascial Release by an amazing therapist and I started taking MFR Seminars. It was a tremendous stretch to come up with the seminar money, but I could feel with every fiber of my being that I needed to pursue this work. In just three years, I've built a thriving Myofascial Release

MYOFASCIAL MOBILIZATION

This fascinating “hands-on” seminar will introduce you to the highly effective world of Myofascial Release. This seminar will present the theory of Myofascial Release and the hands-on sessions will primarily focus on the upper and lower extremities, cervical, thoracic and lumbar areas.

“I just attended Myofascial Mobilization this past weekend! I had mistakenly thought the class would be two days of techniques that were contrary to the principles of John F. Barnes Myofascial Release. So, I took all the other seminars and avoided the mobilization workshop — I even took equine first, despite intense uneasiness around horses. Well, whoops, I was very wrong. The techniques are excellent, they do adhere to the ‘no force’ principles.”

PEDIATRIC MYOFASCIAL RELEASE

This introductory “hands-on” workshop is designed for therapists whose primary focus is on the pediatric population. “John F. Barnes’ Myofascial Release Approach is the most comprehensive & successful bodywork I have ever practiced. I am booked 4 to 6 weeks out. So clients are getting better, new clients are coming in. Myofascial Release literally changed every aspect of my life, my health, and my practice. I say go for it. I am grateful every day that I took that leap.”

MYOFASCIAL RELEASE III— "BEYOND TECHNIQUE"

The contents of this fascinating seminar will include Advanced Myofascial Release, Cranial and Myofascial Unwinding techniques, visualization, guided imagery and subtle energy techniques; emphasizing the development of your proprioceptive senses for whole body evaluation and treatment.

Bond with fellow therapists as you treat one another to help clear yourself mentally, physically, and emotionally so that you can become true healers.

This powerful and enjoyable experience will allow your essence to re-emerge in a healthy, positive, balanced fashion. This will be done in a supportive, loving environment designed to bring out your full potential to become authentic healers.

I look forward to being with you.

Sincerely,

John F. Barnes, P.T.

MYOFASCIAL REBOUNding

Neptune symbolizes water, the fluid (ground substance of fascia) of our body which tends to solidify from trauma and the Trident represents the 3 Pronged MFR Approach.

Myofascial Rebounding utilizes the fluid/energy dynamics as a therapeutic force to greatly enhance your Myofascial Release effectiveness in reducing pain, increasing function and awareness. Myofascial Rebounding also “confuses” the neuromotor system to help free the body of its bracing patterns. It’s kind of a subtle way in the back door. The mind/body doesn’t know what to do, so it just lets go. Myofascial Release and Myofascial Rebounding is an important combination acting as a powerful catalyst enhancing your effectiveness!

THE BEST GIFT I EVER GAVE MYSELF!

Dear John Barnes and all the staff at the Malvern Myofascial Release "Sanctuary",

I want to thank you all for the deeply transformative therapeutic week I spent participating in your 'Therapy for the Therapist' program. I found it to be an amazing opportunity for professional and personal growth. Three sessions of hands-on therapy a day with some of the most talented physical therapists in the world has regenerated me! I haven't felt this good since . . . well, maybe ever! I have been working in physical therapy for 20 years, but never invested 100% of my time and energy toward healing myself, until this week of 'Therapy for the Therapist'. Thanks to Myofascial Release and John, I now know I am worth it. I deserve it. And I need it . . . every year! Everyone does.
