John F. Barnes’ Myofascial Release Approach®

Permission by Dr. JC Guimberteau.
The John F. Barnes’ Myofascial Release Approach® is considered to be the ultimate mind/body therapy that is safe, gentle and consistently effective in producing results that last. John F. Barnes, PT, is an international lecturer, author and authority on Myofascial Release. He is considered to be a visionary and teacher of the highest caliber.

WHAT IS FASCIA?
Fascia is a tough connective tissue which spreads throughout the body in a three-dimensional web from head to foot without interruption. Trauma, posture or inflammation can create a binding down of fascia resulting in excessive pressure on nerves, muscles, blood vessels, osseous structures and/or organs. Since many of the standard tests such as x-rays, myelograms, CAT scans, electromyography, etc, do not show the fascial restrictions, it is thought that an extremely high percentage of people suffering with pain and/or lack of motion may be having fascial problems, but most go undiagnosed.

The viscoelastic quality of the fascial system causes it to resist a suddenly applied force. This explains why the “old form” of myofascial release, which was an attempt to force a system that cannot be forced, produced pain and limited results.

WHAT IS THE JOHN F. BARNES’ MYOFASCIAL RELEASE APPROACH®?
The John F. Barnes’ Myofascial Release Approach® consists of the gentle application of sustained pressure into the fascial restrictions. This essential “time element” has to do with the viscous flow and the piezoelectric phenomenon: a low load (gentle pressure) applied slowly will allow a viscoelastic medium (fascia) to elongate.

Our seminars are designed to be “hands-on” experiences. The seminars listed in this brochure all build upon one another providing a logical, step-by-step, comprehensive Approach for the treatment of pain, headaches and dysfunction. The Barnes’ Myofascial Release Approach® is easily learned so that you can utilize the techniques taught in class immediately upon returning to your practice.

Discover how this truly unique approach can help you to develop the skills and confidence to provide consistent results for your patients / clients while adding fulfillment and revitalizing your professional and personal life!
**Fascia is a Liquid Crystalline Matrix**

*The tide has turned!* Myofascial Release is leading the way in healthcare. Traditional healthcare is crashing and unfortunately it appears that it will get significantly worse. All of this concern is nothing more than a reshuffling of the deck chairs on the Titanic! Don’t let the ‘sinking ship’ of traditional therapy drag you down.

Join the over 75,000 John F. Barnes’ Myofascial Release® therapists that are using MFR in their private practices or facilities whose primary focus is Myofascial Release. These Myofascial Release facilities are flourishing; have minimal paperwork and you will have the fulfillment of profound, consistent results.

**Research Verifies Myofascial Release!**
Many of the techniques that we were taught as therapists had logical theories, however were terribly flawed. The problem is that the methodology to produce consistent lasting results did not materialize. Most forms of therapy only produce temporary results. This flawed methodology has limited your effectiveness and results. The John F. Barnes’ Myofascial Release Approach® has logical principles that produce effective long term, consistent results all of which is now being verified by research!

It has recently been discovered that the environment of the over 100 trillion cells of our body is the ground substance of the Fascial system, which ideally should be a viscous gel. Trauma, thwarted inflammatory processes and surgery dehydrates the ground substance. This solidification impedes the transport of oxygen, nutrition, supplements and/or medication, the biochemistry, hormones, the information and energy that the cells need to thrive.

**Phase Transition**
Principles that I have been teaching for over 40 years are being verified by authorities in physics and fluid dynamics. *The Fourth Phase of Water* by Dr. Gerald Pollack discusses the liquid crystalline nature of fascia and *The Extracellular Matrix: Ground Substance Regulation* by Dr. Alfred Pischinger, one of Germany’s leading scientists, emphasizes the importance of the viscosity of the ground substance of the Fascial system. Dr. Pischinger’s book has been translated into English and represents a culmination of over 30 years of research on the importance of the Fascial system.

Research has confirmed the importance of treating the cross-links that develop into the fibrous web and the ground substance, the fluid component of the Fascial system, which has been overlooked by healthcare. “Phase Transition” is the phenomenon that occurs when ice transforms into water. This unique and important principle is what differentiates Myofascial Release from all other forms of therapy.

**The results of Myofascial Release are based on techniques that produce ‘Phase Transition.’**
Also we were taught ‘linear’ principles for a ‘non linear’ body. Myofascial Release techniques recognize that the Fascial system is ‘non linear’ instead it has a ‘fractal’ nature that responds to the important concepts of tensegrity, mechano-transduction, chaos, complexity and fractal theories and techniques.

**Join the Sea Change!**
John F. Barnes’ Myofascial Release® therapists have become the most successful therapists in the country due to the results that they are able to achieve. The word of the effectiveness of Myofascial Release has spread across the country like ‘wildfire’!

Myofascial Release is an important revolution in healthcare that will allow you to decrease burdensome paperwork, substantially increase your effectiveness and income, and enjoy the fulfillment of profoundly helping others!

**What Myofascial Release Therapists Are Saying...**

‘Dear MFR Friends:
I am overwhelmed. I know a lot of you are too ... I turn down about 3-5 people a week who want me to evaluate and treat them with Myofascial Release. They email me, they call me, they beg me to see them, but I am booked months ahead. Each patient received the John F. Barnes’ method of sustained release myofascial release and exercise.’
Carol D., DPT, Coral Gables, FL

‘Thinking about all the ‘Busy Practice’ talk going on... How incredible to be a part of such an interesting group, and the important Myofascial Release work we are doing. My business has grown quite rapidly over the last 3 years. All of this overwhelming growth has given me a chance to see a really clear picture of what ‘success’ means to me... and the things I make priority. Thank you, I feel fulfilled.’
Renie A., LMT, Cumberland, ME

‘We have been flooded with people seeking Myofascial Release. We are booked solid and the phone just keeps ringing and ringing! With my ever-expanding wait list, I want to say THANK YOU to John who has propelled MFR to where it is today!!

We owe you a HUGE DEBT OF GRATITUDE.
Thank you, thank you, thank you : )’
Phil T., MSPT, Chey Chase, MD

I have been an OT for 17 years and started practicing John F. Barnes’ Myofascial Release® exclusively in 2005. In a short amount of time, I achieved higher levels of patient results, quickly followed by business success, job satisfaction, personal growth, and overall happiness than I imagined possible in my work life. MFR is such a fulfilling way to practice for both the therapist and client! It is effective, compassionate, and a true partnership towards the client’s goals. MFR is so effective that I stay booked months in advance with minimal marketing. Therapists who have trained directly with John F. Barnes, PT have noticed the demand for MFR growing significantly over the past year. We are providing authentic health care, and that is of tremendous benefit to both the patient and the therapist. It is a great privilege and joy to be a Myofascial Release Therapist.
Tara C., OTR/L, Bradentont, FL

_What Myofascial Release Therapists Are Saying..._
Myofascial Release I

This exciting “hands-on” introductory course has trained over 75,000 therapists. Graduates of this course are immediately able to produce positive, structural changes in their patients with acute and chronic pain and dysfunction. These whole-body techniques will be an important added dimension to your existing treatment regimen, greatly enhancing your therapeutic effectiveness.

Enjoy a New, Exciting and Lucrative Career!

I have had the opportunity of training over 75,000 therapists and my goal is to help you improve your logical/intuitive abilities and confidence. Trauma and inflammatory responses create myofascial restrictions that can produce tensile pressures of approximately 2,000 pounds per square inch on pain sensitive structures that do not show up in any of the standards tests (x-rays, myelograms, CAT scans, electromyography, etc.).

This enormous pressure acts like a “straightjacket” on muscles, nerves, blood vessels and osseous structures producing the symptoms of pain, headaches and restriction of motion.

Symptoms are the tip of the iceberg of a much deeper, important problem – myofascial restrictions! Science has now discovered what I have been teaching for over 40 years; i.e., pain, dysfunction and disease are caused by a prolonged inflammatory response. Trauma and the resultant inflammatory response create myofascial restrictions that ultimately create the symptoms.

Myofascial Release allows the chronic inflammatory response to resolve and eradicates the enormous pressure of myofascial restrictions exerted on pain-sensitive structures to alleviate symptoms and to allow the body’s natural healing capacity to function properly.

- ENJOY THE FULFILLMENT OF CONSISTENT, PROFOUNDF RESULTS -
Peter is a doctor of physical therapy and has taken all of our seminars. He shared the following experience with us:

“My son fractured his clavicle during a karate class. I took him to the emergency room where he received an x-ray, was given a sling, medication, and was told he will heal in a couple of weeks, but his clavicle will stay deformed.

So, after we went home, I performed Myofascial Release for his neck, shoulder, and chest with very gentle touch. He felt much better. His pain went significantly down, he slept well, and the next day we decided to see an orthopedist and re-x-ray his shoulder.

According to the orthopedist, he couldn’t explain why his bone was reset in as little as 16 hours. My son is doing just fine; he has no pain, and played basketball today!”
The Myofascial Unwinding™ seminar is designed to enhance your skill level and sensitivity providing you with a comprehensive treatment regime. Persistent pain and/or structural dysfunction may be perpetuated by “holding or bracing patterns” in the body. You will learn from the patient’s perspective how unresolved emotional issues or mental concepts that are outdated and are no longer relevant may impede progress. The intermediate “hands-on” Myofascial Unwinding™ seminar will also improve your mental clarity, focus, sensitivity of touch and expand your abilities to achieve consistent results.

“Introductory Workshop

Myofascial Mobilization

“The Myofascial Mobilization Workshop taught me how to incorporate and utilize Myofascial Release techniques immediately with my patients and that everyone can benefit from myofascial mobilization techniques.”

Pediatric Myofascial Release

This introductory “hands-on” workshop is designed for therapists whose primary focus is on the pediatric population. Myofascial Release will be presented for the evaluation and treatment of head injuries, cerebral palsy, birth trauma, scoliosis, movement dysfunction, neurological dysfunction, trauma, pain and headaches.

12 Contact Hours

“I have gained so many new treatment ideas during the Pediatric Myofascial Workshop. We spent the perfect amount of time in hands-on workshops that I have a good handle on how to perform these techniques correctly to get maximum results with my pediatric patients.”

“My wife told me that she has a cyst on her right ovary and “it does not look good”. During her routine ultrasound it was discovered that she had a dermoid cyst. The doctor suggested surgery to remove the whole right ovary. He warned us that solid cysts do not go away and that my wife would need surgery.

My wife saw an advanced John F. Barnes’ Myofascial Release therapist the following day and subsequently completed 10 Myofascial Release sessions. When my wife had her second ultrasound performed, the cyst was completely gone! “No surgery” the doctor said. What a relief! Thank you John for bringing Myofascial Release to our lives!”

“John teaches this class with such a delightful mixture of tenderness, comedy, integrity and love.”

“The Women’s Health seminar was absolutely awesome. There was a feeling of being part of something incredibly important... like witnessing a piece of history. It felt like John was opening the door for us to be a part of a significant shift in the healthcare field.”

Myofascial Rebounding utilizes the fluid/energy dynamics as a therapeutic force to greatly enhance your Myofascial Release effectiveness in reducing pain, increasing function and awareness. Myofascial Rebounding also “confuses” the neuromotor system to help free the body of its bracing patterns. It’s kind of a subtle way in the back door. The mind/body doesn’t know what to do, so it just lets go. Myofascial Release and Myofascial Rebounding is an important combination acting as a powerful catalyst enhancing your effectiveness!

SUBTLE ENERGY SEMINAR

EXPAND YOUR SENSITIVITY AND AWARENESS!

Presenter: Dr. Margaret Fuhs, DNSc, RN; Transpersonal psychotherapist, healer and co-founder of the Institute for Therapeutic Touch.

We will be using the system of Therapeutic Touch as an energetic healing approach. You will expand your sensitivity and awareness by exploring new levels of stillness, listening, awareness, focus and intentionality, energetic perception, interconnection and intuitive knowing as they relate to our own healing and thus to the deepening healing of patients. This important seminar can be taken as a separate course and it is highly recommended to be taken in conjunction with Myofascial Release III.

CEU's are not offered on the above mentioned seminars
Dear Friends:
The contents of this fascinating seminar will include Advanced Myofascial
Release, Cranial and Myofascial Unwinding techniques, visualization, guided
imagery and subtle energy techniques; emphasizing the development of your
proprioceptive senses for whole body evaluation and treatment.

Bond with fellow therapists as you treat one another to help clear yourself
mentally, physically, and emotionally so that you can become true healers.

This powerful and enjoyable experience will allow your
essence to re-emerge in a healthy, positive, balanced fashion. This will be done
in a supportive, loving environment designed to bring out your full potential to
become authentic healers.

I look forward to being with you. Sincerely, John F. Barnes, P.T.

Prerequisites: Myofascial Release I, Fascial-Pelvis, Cervical-Thoracic, Myofascial Rebounding, Myofascial Unwinding, Myofascial
Release II, Advanced Myofascial Unwinding, and a one week Skill Enhancement Seminar at either of our Myofascial
Release Treatment Centers. The opportunity to work closely with you will help us in making final selections for the
course. The structure, environment, prerequisites and cost of the seminar have been carefully calculated to admit only
those that we feel are ready for this next evolutionary leap.

Dates: October 22-27, 2013
Times: Full and half days. Times will vary.
Location: Red Rock Memorial Lodge, Sedona, Arizona
Nestled like a diamond in the foothills of towering red cliffs, Sedona is considered to be one of the natural wonders
of the world. Its sheer red walls and pinacles reach heights of 2,500 feet with the waterfalls of Oak Creek cutting
their way through majestic pine forests. It is a landscape masterpiece that has taken nature’s architect millions of years
to sculpt.

Hotel: Sky Ranch Lodge (928) 282-6400 – Reserve Early!
Price: $1800 or $1495 if registered two prior to the seminar date.
To Apply: Please send your picture, resume and a letter stating what the Myofascial Release Approach has done for you person-
ally and professionally, why you feel you are ready for this seminar and what your goals are for this 6 day retreat.
Mail to MFR Seminars, 42 Lloyd Avenue, Malvern, PA 19355, along with a $500 deposit.
Those not accepted will receive a full refund.

Since it is essential to have a compatible group in attitude, openness and skill level, we reserve the right to accept only those
that we feel are functioning at the proper level at this time.

CEU’s are not offered for this seminar.
The Myofascial Healing Seminar will guide you to the depths of your essence for authentic healing in the most beautiful place in the world – Sedona, Arizona.

FOR THE PATIENT
The Myofascial Healing Seminar will teach you how to “treat” yourself and is designed to help those wanting to enhance their progress and take a quantum leap in their healing. Through lectures and workshops patients will learn how to help eliminate their pain and energize their body. Send your patients/clients to the Myofascial Healing Seminars to enhance their treatment response, cut their healthcare costs and provide a way of helping them to continue to heal.

FOR THE THERAPIST:
HEAL YOURSELF
The Myofascial Healing Seminar is also for you, the therapist, and your friends and family, providing all of you an inexpensive way to lift your spirits, soothe your mind and eliminate your pain while enhancing your healing journey.

“This seminar is so important! It has given me my life back!”

“After suffering with fibromyalgia for years, my pain is finally gone! I feel so much better!”

“John is a therapist of the highest caliber. I could feel the compassion flowing from his gentle touch. The power and love within this seminar supported me in overcoming my pain.”

The Skill Enhancement Seminar is offered on-site in our Malvern, Pennsylvania and Sedona, Arizona Treatment Centers. The Skill Enhancement Seminar allows anyone who has taken Myofascial Release I to work alongside our highly trained and skilled Myofascial Release staff as we treat patients and therapists from around the world.

Therapists who attend the Skill Enhancement Seminar can incorporate the knowledge and skills learned at our off-site educational seminars in a clinical setting that specializes in Myofascial Release. The value of individual, private instruction on Myofascial Release techniques with actual patients, as well as receiving private treatment, serves to be a comprehensive and an invaluable instructional experience. Immediate and personal feedback will be offered to the participating therapist. Questions will be addressed in a timely and productive fashion throughout this week long seminar.

**Skill Enhancement with John F. Barnes, PT**

The Skill Enhancement Seminar is also offered during select weeks when John F. Barnes, PT is treating at either the Malvern or Sedona Myofascial Release Treatment Centers. This option allows the therapist to treat patients alongside John Barnes and our staff. Personal treatment sessions with John F. Barnes and our staff are all included.

Enrollment in the Skill Enhancement Seminar is limited. We only accept four therapists per week to ensure personal and direct guidance. Booking in advance is recommended.

- Learn how a successful Myofascial Release Treatment Center operates in terms of patient flow, variety, and frequency of treatments.
- Examine how a patient’s progress is influenced by varying frequency of treatments.
- Observe the unique styles of our therapists and instill confidence and cultivate your own distinct therapeutic abilities.

“**The Sanctuary**” - Malvern, PA

“**Therapy on the Rocks**” - Sedona, AZ

“The Skill Enhancement Seminar is a very positive and rewarding experience. I felt very comfortable and welcome. The openness and feedback from the team of therapists was much appreciated. I have a lot more self confidence about practicing Myofascial Release with my clients and about myself.”

“What an enjoyable and significant learning experience. There was no pressure and it was so important to receive the personal supervision for refinement of my skills.”
“The Sanctuary”, our Eastern Myofascial Release Treatment Center, located in Malvern, Pennsylvania, the Main Line suburbs of Philadelphia, is a therapeutic retreat that is a haven for patients and therapists who desire the utmost care. Experience the expert guidance of our Myofascial Release Therapists’ hands-on healing skills so that you can return to a pain-free, active lifestyle!

Our beautiful, new John F. Barnes’ Myofascial Release Treatment Center is an impressive stone and wood building immersed in the healing energy of an ancient, lush forest. Patients will enjoy the benefits of Myofascial Release treatments, a soothing sauna and whirlpool, and the tranquil woodland environment.

To complement your treatments, there are a group of world famous gardens; Winterthur Gardens, the internationally acclaimed Longwood Gardens, the Chanticleer Garden Estate and many historical country inns and horse farms are all within a short drive.
